Experience

To do list

Present

GitHub

website app to add your tasks that was done using React

Consultation services

2023

Website | <http://ruzuku.com.ua>

Consultation and legal services landing page. My work as a freelancer

Foundation

2022

Website project

I recently created a website using jQuery technology and animation to bring it to life. jQuery is a popular JavaScript library that allows developers to easily manipulate the DOM, handle events.
